

Disclaimer: this does not necessarily contain every academic resource on campus. For additional resources and assistance, contact your academic advisor

# **College of Agriculture & Life Sciences**

# Agribusiness Economics & Management

Due to the size of this department, there are no major specific resources offered. However, you are encouraged to reach out to your professor or advisor so they can help your particular situation.

You may also refer to the major and minor academic advisor for assistance:

Danielle Buhrow - [danielleb@arizona.edu](mailto:danielleb@arizona.edu)

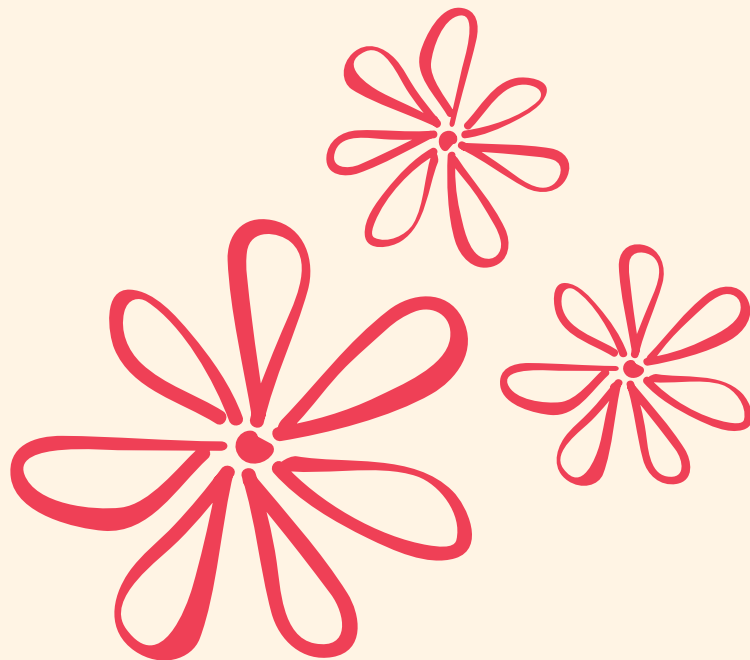

She can connect you with graduate students in their master of science degree program for private tutoring

# **Agricultural Technology Management & Education**

This major is based in Yuma but members still have access to Think Tank and Writing Center.

Due to the size of this department, there are no major specific resources offered. However, you are encouraged to reach out to your professor or advisor so they can help your particular situation.

# Animal Sciences

Tutoring- Sometimes, the department offers tutoring services.  
Reach out to your advisor for more  
information.

Study Banks- Some of the student clubs have banks of study  
materials for active members.

The best resource is encouraging students to  
communicate with their instructors and TAs for their courses.

As always, advisors are the best to reach out to if you are  
struggling.

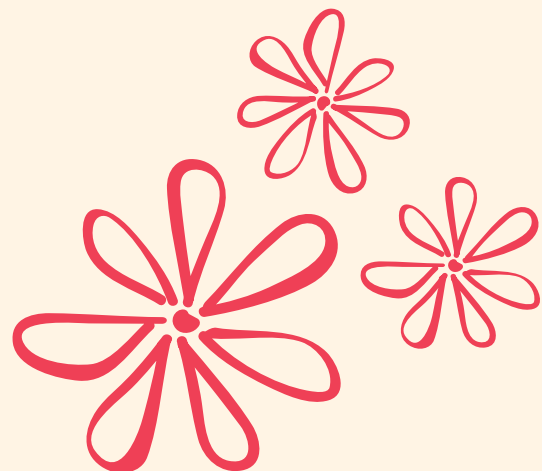

# Environmental Science

Due to the size of this department, there are no major specific resources offered. However, you are encouraged to reach out to your professor or advisor so they can help your particular situation.

# Food Safety

Due to the size of this department, there are no major specific resources offered. However, you are encouraged to reach out to your professor or advisor so they can help your particular situation.

# Microbiology

Tutoring and Study Rooms- Used to have tutoring for almost all the hard science courses and study rooms available for student use, but had to stop due to COVID 19.

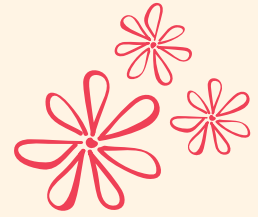

Check-in with your advisor for more info on when those services might return.

Microbiology Club- This club is "an organization comprised of students and affiliated academic members that come together to promote interest in microbiology and all related fields including pathology, immunology, virology, mycology, parasitology, and bacteriology. The organization aims to not only spread the knowledge and interest in microbiology, but to also provide members with special opportunities and knowledge of scholarships, research opportunities, and field experience," according to their website.
