A UA student affiliated with a recognized panhellenic sorority reported to the Dean of Students that allegedly on or about January 13, 2022, she attended a registered alcohol-free social event hosted by Theta Xi at their facility. The student disclosed there was no check-in or verification of age and she just walked in. After entering she was able to obtain a mix drink containing hard alcohol from a Gatorade jug common source. She stated there was at least 5 to 4 members responsible for pouring the drinks. The student disclosed she was under age and was never asked to provide age verification before being handed the drink. The next morning the student felt she had been drugged after attending the social event. A test displayed inclusive results for benzos and MDMA.
