Good Afternoon,

My name is Max C. Lee and I am the Vice President of Membership for the University of Arizona Interfraternity Council. We are so excited to have your student as part of our greek community! Your student’s decision to join a fraternity will make a lasting impact on his academic, social, and professional development. As a new member of a fraternity, your student will become part of the 15% of undergraduate students who are Greek at the University of Arizona.

Fraternity members are very active on campus and hold leadership positions in a diverse range of campus organizations. All chapters strive to promote a balance between academics, social activities, work, and civic responsibility. We strive to hold fraternity men to the highest of standards. Fraternity and sorority members are more likely to return to the UA after their freshman year than non-affiliated students, and more likely to graduate and graduate on time! Here is some important information regarding Greek life here at the U of A.

1. **Hazing.** Hazing is not tolerated in any capacity by the Interfraternity Council. We believe that no individual Wildcat should be demeaned, ridiculed, belittled or placed in a potentially harmful situation in order to be included in a group at The University of Arizona. This goes for all Greek organizations and we take all allegations of hazing very seriously. All new members should expect to learn about their organization, the university, their brothers, and be treated with respect. They should not be asked to miss their classes, made to do chores, or anything else that might make them feel uncomfortable. If you have any concerns or would like to report hazing, please contact the University of Arizona hazing hotline at (520) 626-HAZE.

2. **Programming.** Your student will be asked to attend several different types of programming throughout his fraternity experience. Different programming includes drug and alcohol awareness, sexual assault prevention, and presentations on diversity and inclusion. We believe that through our programming, we are helping to create the best leaders on our campus.

3. **Unrecognized Organizations.** There are several unrecognized Greek organizations by the University of Arizona. We ask that your student does NOT join any of these organizations, as they have posed a threat to the health and safety of students in the past and are not recognized for
a reason. For a complete list of organizations who are not recognized by the University and more, please visit greek.arizona.edu/judicial.

4. Support. At this University all students will have access to a plethora of resources in order to maintain a healthy well-being. Students have full access to CAPS (Counseling and Psychological Services), Campus Rec, and Campus Health.

If you have any questions or concerns, please feel free to contact me via email (arizonaifevpmembership@gmail.com), our IFC president Jacob Benabou (arizonaifcpresident@gmail.com), or our IFC advisor Amy Damron (amydamron@arizona.edu).

Thank you and we hope your student enjoys their experience in Greek Life!

Sincerely,

Max C. Lee
Vice President of Membership
Interfraternity Council
