Introduction

The fraternity and sorority community at the University of Arizona has had a long and rich history, dating back to 1915. Since that time, fraternities and sororities have had a continual and active presence on campus.

The University has been supportive of the goals and ideals of the fraternity and sorority community. These ideals are expressed in the four pillars of Greek Life at Arizona and include: academic achievement, leadership, service, and citizenship. When the pillars are partnered with the University of Arizona’s mission statement of “To improve the prospects and enrich the lives of the people of Arizona and the world through education, research, and creative expression.” they are a powerful force that should drive community activities.

University Commitment

For over one hundred years, the University of Arizona has served as a supportive environment for fraternal life. The legacy began in 1915 when the first national Greek-letter organizations were founded at the University of Arizona. With the development of these standards, comes an additional level of commitment from the Fraternity & Sorority Programs Staff and the University of Arizona. The standards will not only serve as a benchmark of accomplishments for the chapter but will also assist in the redevelopment of any organization that has not achieved the following standards.

Greek Life Task Force

The Greek Life Task Force was called together in 2003 to develop a strategic plan for the University of Arizona Greek Community. The Task Force recommendations are intended to advance the development of Greek letter fraternities and sororities and their respective individual members. The Task Force developed specific recommendations for minimum standards for Greek letter organizations at the university and those proposals were utilized to develop this document.

The objectives for the Greek Life Task force were as follows:

1. Develop and execute assessment initiatives that accurately capture the current state of the Greek Community.
2. Collect data from other Greek communities that includes programmatic ideas; minimum chapter standards for University recognition; and best-practices to address hazing, improve risk management guidelines, and increase junior/senior member retention rates, etc.
3. Generate mission and vision statements for the Greek Community.
4. Review the current University of Arizona Relationship Statement with Greek Life and recommend changes as appropriate.
5. Develop recommendations for changes regarding current policies, practices, and programs as well as a timeline for such initiatives.

Points

The points given for the standards reflect a comprehensive picture of a fraternity or sorority chapter. The Fraternity and Sorority Programs staff will utilize a predetermined points system that will be distributed to chapter presidents and advisors within the month of March.

Any chapter that does not have a University recognized chapter facility is exempt from those standards that specifically deal with the management of a fraternity or sorority house and will have a different cumulative total of points than housed organizations.

Chapters that do not recruit/intake new members for a specific semester will abide the appropriate standards that apply to the chapter; and will have a different cumulative total of points.

Points will NOT be awarded for any standards that were met due only to requirements from a sanction (i.e. Community service hours, educational presentations, etc.).
Recognition of Achievements

The standards reflect a tremendous amount of work on the part of chapter members, leaders, advisors and inter/national staff and volunteers. These partnerships have resulted in a more effective set of standards that will inevitably ensure success. The University is committed to assisting chapters in any way possible to accomplish the standards outlined in this document.

Chapters that meet these standards will be recognized at the Order of Omega Awards Banquet and will be assisted in publicizing their success and accomplishments. The following point breakdown signifies the corresponding award that will be rewarded:

**Overall Achievement**

- 90% of total points: Chapter of Excellence
- 80% of total points: Chapter of Achievement
- 70% of total points: Chapter of Promise
- 60% of total points: Probationary Chapter
- Less than 60%: Loss of Campus Privileges (Not in good standing)

**Functional Area Achievement** (i.e. Scholarship, Chapter Management, etc.)

Areas of Improvement

Recognizing that dramatic change cannot occur overnight, these standards will demonstrate to chapters their current standings within the fraternity and sorority community. This information will be used as a starting point from which improvements can be made.

Chapters will not be able to maintain status quo. Continued improvement, where needed, is expected.

The following are the post-awards expectations of chapters based on their achievement during the standards assessment:
